Aim:

Follow the instructions given below to write a program to open a file and to print its **contents** on the screen.

Exp. Name: Write a C program to Open a File and to Print its contents on the

- Open a new file "SampleText1.txt" in write mode
- · Write the content in the file
- · Close the file

screen

- · Open the same file in read mode
- Read the content from file and print them on the screen
- · Close the file

Source Code:

Program1501.c

```
#include <stdio.h>
void main() {
  FILE *fp;
  char ch;
  fp = fopen("SampleText1.txt", "w"); // Open a new file in write mode
  printf("Enter the text with @ at end : ");
  while ((ch=getchar())!='@') { // Repeat loop till read @ at the end
      putc(ch,fp); // Put read character onto the file
}
  putc('@',fp); // Put delimiter @ at the end on the file
  fclose(fp); // Close the file
  fp = fopen("SampleText1.txt", "r"); // Open the existed file in read mode
  printf("Given message is : ");
  while ((ch=fgetc(fp))!='@') { // Repeat loop till get @ at the end of existed file
      putchar(ch); // Put the character on the screen
}
  printf("\n");
   fclose(fp); // Close the file
}
```

Execution Results - All test cases have succeeded!

```
Test Case - 1

User Output

Enter the text with @ at end : CodeTantra is a

Startup Company recognized by Government of India@
